1. Summary of Significant Accounting Policies

Basis of Presentation

The condensed consolidated financial statements for the three and nine months ended January 31, 2007 and 2006 include the accounts of Korn/Ferry International and all of its wholly and majority owned/controlled domestic and international subsidiaries (collectively, the “Company”). The condensed consolidated financial statements are unaudited, but include all adjustments, consisting of normal recurring accruals and any other adjustments that management considers necessary for a fair presentation of the results for these periods. These financial statements have been prepared consistently with the accounting policies described in the Company’s Annual Report on Form 10-K for the fiscal year ended April 30, 2006 (the “Annual Report”) and should be read together with the Annual Report.

Critical Accounting Policies and Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. As a result, actual results could differ from these estimates. The most significant areas that require management judgment are revenue recognition, deferred compensation and the carrying values of goodwill and deferred income taxes.

Cash and Cash Equivalents

The Company considers cash equivalents to be only those investments which are highly liquid, readily convertible and mature within three months from the date of purchase.

Available for Sale Securities

The Company considers its marketable securities as available-for-sale as defined in SFAS No. 115, “Accounting for Certain Investments in Debt and Equity Securities.” These investments are recorded at fair value and are classified as marketable securities in the accompanying condensed consolidated balance sheets as of January 31, 2007 and April 30, 2006. The changes in fair values, net of applicable taxes, are recorded as unrealized gains (losses) as a component of accumulated other comprehensive income in stockholders’ equity. Investments are made based on the Company’s investment policy which restricts the types of investments that can be made.

Stock-Based Compensation

The Company has employee compensation plans under which various types of stock-based instruments are granted. These instruments, as more fully described below, principally include stock options, stock appreciation rights (“SARs”), restricted stock, and an Employee Stock Purchase Plan (“ESPP”).

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
(in thousands, except per share amounts)

Prior to May 1, 2006, the Company accounted for employee stock-based compensation under the recognition and measurement principles of Accounting Principles Board Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees," ("APB No. 25"), and related Interpretations, as permitted by Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"). Under the recognition principles of APB No. 25, compensation expense related to restricted stock and SARs was recognized in the Company's consolidated financial statements. However, APB No. 25 generally did not require the recognition of compensation expense for stock options because the exercise price of these instruments was generally equal to the market value of the underlying common stock on the date of grant, and the related number of shares granted were fixed at that point in time. Compensation expense for the ESPP was not recognized since the ESPP was considered non-compensatory under APB No. 25.

Effective May 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123(R), "Share-Based Payment" ("SFAS No. 123 (R)"). In addition to recognizing compensation expense related to restricted stock and SARs, SFAS No. 123(R) also requires the Company to recognize compensation expense related to the estimated fair value of stock options and for purchases under the ESPP. The Company adopted SFAS No. 123(R) using the modified-prospective-transition method. Under that transition method, compensation expense recognized subsequent to adoption includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of May 1, 2006, based on the values estimated in accordance with the original provisions of SFAS No. 123, and (b) compensation cost for all share-based payments granted subsequent to May 1, 2006, based on the grant-date fair values estimated in accordance with the provisions of SFAS No. 123(R). Consistent with the modified-prospective-transition method, the Company's results of operations for prior periods have not been adjusted to reflect the adoption of SFAS No. 123(R).

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)
(in thousands, except per share amounts)

As a result of recognizing compensation expense for stock options and the ESPP pursuant to the provisions of SFAS No. 123(R), the Company's income before income taxes and net income for the three months ended January 31, 2007, were \$1,250 and \$780 lower, respectively, than if the Company had continued to account for the stock-based compensation under APB No. 25. For the nine months ended January 31, 2007, the Company's income before income taxes and net income were \$4,542 and \$2,834 lower, respectively. In addition, basic and diluted earnings per share ("EPS") for the three months ended January 31, 2007 were \$0.02 and \$0.01 lower, respectively, than if the Company had continued to account for the stock-based compensation under APB No.25. For the nine months ended January 31, 2007, the Company's basic and diluted EPS were \$0.07 and \$0.06 lower, respectively.

The following table reflects the components of stock-based compensation expense recognized in the Company's condensed consolidated statements of income for the three and nine months ended January 31, 2007 and 2006:

	Three Months Ended January 31,		Nine Months Ended January 31,	
	2007	2006	2007	2006
Stock options and SARs	\$ 1,230	\$ 432	\$ 4,007	\$ 1,083

Employee Stock Purchase Plan	114	—	346	—
Total stock-based compensation expense, pre-tax	3,694	1,551	10,374	4,100
Tax benefit from stock-based compensation expense	(1,395)	(554)	(4,022)	(1,524)
Total stock-based compensation expense, net of tax	<u>\$ 2,299</u>	<u>\$ 997</u>	<u>\$ 6,352</u>	<u>\$ 2,576</u>

The above table does not reflect any stock option or ESPP compensation for the three and nine months ended January 31, 2006 as the Company generally did not record stock option or ESPP expense under APB No. 25, as previously discussed.

The following table illustrates the effect on net income and EPS for the three and nine months ended January 31, 2006 if we had applied the fair value recognition provisions as provided under SFAS No. 123:

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company uses the Black-Scholes option valuation model to estimate the grant date fair value of employee stock options. The expected volatility reflects the consideration of the historical volatility in the Company's publicly traded instruments during the period the option is granted. The Company believes historical volatility in these instruments is more indicative of expected future volatility than the implied volatility in the price of the Company's common stock. The expected life of the option is estimated using historical data to estimate the expected life of the options. The risk-free interest rate is based on the U.S. Treasury zero-coupon issue with a remaining term approximating the expected term of the options. Upon adoption of SFAS No. 123(R), the Company began using historical data to estimate forfeiture rates applied to the gross amount of expense determined using the option valuation model. Prior to adoption of SFAS No. 123(R), the Company recognized forfeitures as they occurred. There was no material impact upon adoption of SFAS No. 123(R) between these methods of accounting for forfeitures. The assumptions used to estimate the fair value of the stock options using the Black-Scholes option valuation model were as follows for the nine months ended January 31:

	Nine Months Ended January 31,	
	2007	2006
Expected volatility	48.05%	50.0%
Risk-free interest rate	4.95%	3.83%
Expected option life (in years)	4.00	4.50
Expected dividend yield	0.00%	0.00%

The Black-Scholes option pricing model was developed for use in estimating the fair value of traded options. The assumptions used in option valuation models are highly subjective, particularly the expected stock price volatility of the underlying stock. For purposes of pro forma disclosures, the estimated fair values of the options are amortized over the options' vesting periods.

Stock Option Plans

The Company's employee stock option plans provide for option grants designated as either nonqualified, incentive stock options or SARs. Options granted to officers, non-employee directors and other key employees generally vest over a three to five year period, and generally expire ten years from the date of grant. Key employees are eligible to receive a grant of stock options annually with the number of options determined by the employee's performance level. In addition, certain key management personnel typically receive stock option or restricted stock grants upon commencement of employment.

Stock option and SARs information during the nine months ended January 31, 2007 is as follows:

	Options (in thousands)	Weighted- average exercise price	Weighted- average remaining contractual life (Yrs)	Aggregate intrinsic value
Outstanding at April 30, 2006	6,743	\$ 13.42		
Granted	104	20.92

Exercisable at January 31, 2007	4,183	\$ 13.55	5.33	\$43,861

Included in the table above are 67 SARs outstanding at January 31, 2007 with a weighted-average exercise price of \$12.02, and 66 SARs exercisable at January 31, 2007 with a weighted-average exercise price of \$11.96. As of January 31, 2007, there was \$4,950 of total unrecognized compensation cost related to nonvested awards of stock options and SARs. That cost is expected to be recognized over a period of one year. For stock option awards subject to graded vesting that were issued after May 1, 2006, we recognize the total compensation cost on a straight-line basis over the service period for the entire award.

Restricted Stock

The Company grants restricted stock to executive officers and other senior employees generally vesting over a three to four year period. Restricted stock is granted at a price equal to the fair market value of the common stock on the date of grant. Employees may receive restricted stock annually in conjunction with the Company's performance review as well as throughout the year upon commencement of employment. The fair values of restricted stock shares are determined based on the closing price of the Company's common stock on the grant dates.

Information regarding our restricted stock during the nine months ended January 31, 2007 is as follows:

	Shares (in thousands)	Weighted- average grant date fair value
Nonvested shares		
Nonvested at April 30, 2006	687	\$ 16.63
Granted	1,112	19.44

Forfeited	(60)	18.79
Nonvested at January 31, 2007	<u>1,444</u>	<u>\$ 18.97</u>

As of January 31, 2007, there was \$10,064 of total unrecognized compensation cost related to nonvested awards of shares of restricted stock. That cost is expected to be recognized over a period of 1.6 years. For restricted stock awards subject to graded vesting that were issued after May 1, 2006, the Company recognizes the total compensation cost on a straight-line basis over the service period for the entire award. In the three and nine months ended January 31, 2007, 1 and 71 restricted stock shares totaling \$13 and \$1,394, respectively, were repurchased by the Company at the option of the employee to pay for taxes on restricted stock shares vesting in the periods.

Employee Stock Purchase Plan

In October 2003, the Company implemented an ESPP that, in accordance with Section 423 of the Internal Revenue code, allows eligible employees to authorize payroll deductions of up to 15% of their salary to purchase shares of the Company's common stock at 85% of the fair market price of the common stock on the last day of the enrollment period. The maximum number of shares of common stock reserved for ESPP issuance is 1,500, subject to adjustment for certain changes in the Company's capital structure and other extraordinary events. During the three months ended January 31, 2007 and 2006, employees purchased 57 shares at \$19.52 per share, and 77 shares at \$15.01 per share, respectively. During the nine months ended January 31, 2007 and 2006, employees purchased 142 shares at \$17.81 per share, and 183 shares at \$15.06 per share, respectively. At January 31, 2007, the plan had approximately 900 shares available for future issuance.

Common Stock

The Company issued approximately 465 and 1,560 common shares as a result of the exercise of stock options and 57 and 142 common shares in conjunction with the Company's ESPP in the three and nine months ended January 31, 2007, respectively. The Company issued approximately 699 and 1,417 common shares relating to the exercise of stock options and 77 and 183 common shares in conjunction with the Company's ESPP in the three and nine months ended January 31, 2006, respectively.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period presentation.

New Accounting Standards

In July 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"). Among other things, FIN 48 creates a model to address uncertainty in tax positions and clarifies the accounting for income taxes by prescribing a minimum recognition threshold which all income tax positions must achieve to meet before being recognized in the financial statements. In addition, FIN 48 requires expanded annual disclosures, including a tabular rollforward of the beginning and ending aggregate unrecognized tax benefits as well as specific detail related to tax uncertainties for which it is reasonably possible the amount of unrecognized tax benefit will significantly increase or decrease within 12 months. FIN 48 is effective for the Company on May 1, 2007. Any differences between the amounts recognized in the statement of financial position prior to the adoption of FIN 48 and the amounts reported after adoption are generally accounted for as a cumulative-effect adjustment recorded to the beginning balance of retained earnings. The Company is currently evaluating the impact of FIN 48; however, it is not expected to have a material impact on the Company's consolidated financial position and results of operations.

In September 2006, FASB issued Statement of Financial Accounting Standards No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106, and 132(R)" ("FAS 158"). FAS 158 retains the previous measurement and disclosure requirements of prior accounting guidance, but now requires the recognition of the funded status of pension and other postretirement benefit plans on the balance sheet ("recognition provisions"). Furthermore, for fiscal years ending after December 15, 2008, FAS 158 requires fiscal-year-end measurements of plan assets and benefit obligations, eliminating the use of earlier measurement dates currently permissible. The recognition provisions of FAS 158 are effective for the Company on April 30, 2007. Previously unrecognized actuarial gains or losses, prior service cost, and any remaining unamortized transition obligation will be recognized on the balance sheet with an offset to accumulated other comprehensive income, net of any resulting deferred tax balances. The Company is currently evaluating the impact of the adoption of the recognition provisions of FAS 158; however, it is not expected to have a material impact on the consolidated financial statements.

2. Basic and Diluted Earnings Per Share

Basic earnings per common share ("basic EPS") was computed by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per common share ("diluted EPS") reflects the potential dilution that would occur if all in-the-money outstanding options or other contracts to issue common stock were exercised or converted and was computed by dividing adjusted net income, after assumed conversion of subordinated notes and preferred stock, by the weighted average number of common shares outstanding plus dilutive common equivalent shares. The following is a reconciliation of the numerator and denominator (shares in thousands) used in the computation of basic and diluted EPS:

	Three Months Ended January 31,		Nine Months Ended January 31,	
	2007	2006	2007	2006
Net income (Numerator):				
Net income for basic EPS	\$ 14,730	\$ 16,613	\$ 41,959	\$ 39,130

Diluted EPS	<u>\$ 0.33</u>	<u>\$ 0.37</u>	<u>\$ 0.95</u>	<u>\$ 0.88</u>

Assumed exercises or conversions have been excluded in computing the diluted EPS when their inclusion would be anti-dilutive.

Revenue from leadership development solutions and other consulting engagements including revenue from our recent acquisition of the Lominger Entities (as defined below), is included in executive recruitment. Futurestep's worldwide operations are managed by the Chief Executive Officer of Futurestep. The executive recruitment geographic regional leaders and the Chief Executive Officer of Futurestep report directly to the Chief Executive Officer of the Company. The Company also operates a Corporate segment to record global expenses of the Company.

Forward-looking Statements

This quarterly report on Form 10-Q may contain certain statements that we believe are, or may be considered to be, "forward-looking" statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally can be identified by use of statements that include phrases such as "believe", "expect", "anticipate", "intend", "plan", "foresee", "may", "will", "estimates", "potential", "continue" or other similar words or phrases. Similarly, statements that describe our objectives, plans or goals also are forward-looking statements. All of these forward-looking statements are subject to risks and uncertainties that could cause our actual results to differ materially from those contemplated by the relevant forward-looking statement. The principal risk factors that could cause actual performance and future actions to differ materially from the forward-looking statements include, but are not limited to, dependence on attracting and retaining qualified and experienced consultants, portability of client relationships, local political or economic developments in or affecting countries where we have operations, ability to manage growth, restrictions imposed by off-limits agreements, competition, risks related to the growth and results of Futurestep, reliance on information processing systems, and employment liability risk. Readers are urged to consider these factors carefully in evaluating the forward-looking statements. The forward-looking statements included in this Form 10-Q are made only as of the date of this report and we undertake no obligation to publicly update these forward-looking statements to reflect subsequent events or circumstances.

The following presentation of management's discussion and analysis of our financial condition and results of operations should be read together with our condensed consolidated financial statements included in this Form 10-Q.

Executive Summary

Korn/Ferry International and all of its wholly and majority owned/controlled domestic and international subsidiaries (collectively, the "Company", or in the first person, "we", "us" and "our") are a leading provider of talent management solutions. Our services include executive recruitment where we have the broadest global presence in this segment of the industry, middle-management and outsourced recruitment through Futurestep, leadership development solutions and executive coaching. Over half of the executive recruitment searches we performed in fiscal 2006 were for board level, chief executive and other senior executive positions. Our 4,373 clients in fiscal 2006 included approximately 44% of the Fortune 500 companies. We have established strong client loyalty; more than 83% of the executive recruitment assignments we performed in fiscal 2006 were on behalf of clients for whom we had conducted assignments in the previous three fiscal years.

In an effort to achieve our long-term vision of being the leading provider of executive search, outsourced recruiting and leadership development solutions, our strategic focus for fiscal 2007 is centered upon increasing market share and further increasing the cross-selling and utilization of our multi-product strategy. We continue to explore new products and services, enhance our technology and aggressively leverage our brand through thought leadership and intellectual capital projects as a means of delivering world-class service to our clients.

Fee revenue increased 27% in the third quarter of fiscal 2007 to \$165.2 million compared to prior year third quarter primarily due to a 12% increase in the number of engagements billed in the executive search segment, resulting from an increase in the number of engagements opened, as well as higher average fees in engagements billed. Fee revenue was also impacted by our acquisition of the Lominger Entities on August 8, 2006. The North American region experienced the largest dollar increase in fee revenue in executive recruitment, as revenue increased \$17.8 million, or 28%, due to a 14% increase in the number of engagements billed in the quarter combined with an increase in average fees in engagement. Futurestep experienced a 24% increase in fee revenue over the prior year's quarter as average fees in engagement in the period increased versus the prior year quarter. In the third quarter of fiscal 2007, we earned operating income of \$21.4 million, with operating income of \$27.3 million and \$2.3 million from executive recruitment and Futurestep, respectively, offset by corporate expenses of \$8.1 million.

Our total long-term debt at January 31, 2007 was \$47.3 million. Our working capital increased \$29.3 million to \$247.5 million at January 31, 2007 compared to \$218.2 million at April 30, 2006.

Critical Accounting Policies

The following discussion and analysis of our financial condition and operating results are based on our unaudited condensed consolidated financial statements. Preparation of this quarterly report on Form 10-Q requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenue and expenses during the reporting periods. Actual results may differ from those estimates and assumptions. In preparing our interim financial statements and accounting for the underlying transactions and balances, we apply our accounting policies as disclosed in our Notes to Unaudited Condensed Consolidated Financial Statements. We consider

Table of Contents

the policies related to revenue recognition, deferred compensation and the carrying values of goodwill and deferred income taxes as critical to an understanding of our interim consolidated financial statements because their application places the most significant demands on management's judgment. Specific risks for these critical accounting policies are described in our Fiscal 2006 Annual Report on Form 10-K.

Three Months Ended January 31, 2007 Compared to Three Months Ended January 31, 2006

Fee Revenue. Fee revenue increased \$35.6 million, or 27%, to \$165.2 million in the three months ended January 31, 2007 compared to \$129.6 million in the three months ended January 31, 2006. Globally, engagements billed increased as did the average fees in engagements billed. Strong performances in all segments were noted along with continued revenues derived from the Company's newer offices, opened in the latter part of last fiscal year. In addition, on August 8, 2006, the Company acquired all of the outstanding capital stock of Lominger Limited, Inc. and Lominger Consulting, Inc. (the "Lominger Entities"). The Lominger Entities contributed \$3.9 million of fee revenue during the quarter.

Executive Recruitment—Executive Recruitment fee revenue increased \$31.2 million, or 28%, to \$142.9 million due to a 12% increase in the number of engagements billed in the period, an increase in the average fees in engagements billed and the impact of the Lominger acquisition. Emerging economies as well as expanding industries in various regions also factored in the overall growth in fee revenue. Exchange rates favorably impacted fee revenue by \$4.5 million in the current quarter.

North America fee revenue increased \$17.7 million, or 27%, to \$82.1 million in the current quarter primarily due to a 14% increase in the number of engagements billed and an increase in average fees in engagement billed. Growth in all sectors was noted, with more significant increases derived from the financial services and industrial sectors, along with strong performance from the advanced technology sector.

Europe reported an increase in fee revenue of \$9.0 million or 31%, to \$37.9 million from \$28.9 million in the same period last year, primarily due to a 16% increase in engagements billed and an increase in average fees in engagements billed. Business in the European market continues to expand in the newer offices established and office relocations occurring in the latter part of the prior fiscal year, including in the Czech Republic and in Germany. Exchange rates favorably impacted European fee revenue by \$4.0 million in the current quarter as compared to last year.

Asia Pacific fee revenue increased \$4.7 million, or 34%, to \$18.6 million compared to the same period last year due to a 8% increase in the number of engagements billed as well as an increase in average fees in engagements billed. The Company's offices in China and Hong Kong continue to grow and the emerging markets in the region now account for almost half the total increase in the Asia Pacific's fee revenue as compared to the same quarter last year. Exchange rates favorably impacted Asia Pacific fee revenue by \$0.5 million in the current quarter.

South America reported fee revenue of \$4.3 million, a decrease of \$0.1 million, or 2%, compared to last year due to a 9% decrease in the number of engagements billed offset by a 7% increase in the average fees in engagements billed. The majority of the net decrease in the current quarter is attributed to Brazil where fee revenues declined compared to the same quarter in 2006. This decrease was offset by increases in fee revenue amongst the other South American entities. Exchange rates favorably impacted fee revenue by \$0.1 million in the current quarter.

Futurestep—Fee revenue increased \$4.3 million, or 24%, to \$22.3 million in the three months ended January 31, 2007 compared to \$18.0 million in the three months ended January 31, 2006. The improvement in fee revenue, reflected across all regions, is due to an increase in the average fees in engagements billed. Of the total increase in fee revenue, Asia experienced the largest increases of \$1.9 million and Europe generated \$1.7 million. Fee revenue continued to increase from continued movement towards performance of larger engagements. Exchange rates favorably impacted fee revenue by \$1.0 million in the current quarter.

Compensation and Benefits. Compensation and benefits expense increased \$25.4 million, or 29%, to \$112.3 million in the three months ended January 31, 2007 compared to \$86.9 million in the three months ended January 31, 2006. The increase in compensation

Table of Contents

and benefits expense reflects the hiring of new consultants globally, along with performance based incentives, and the continued development of internal resources in response to increasing demand for the Company's services. An increase of \$1.6 million is attributable to the addition of the Lominger Entities. Additionally, a \$1.3 million increase was noted due to the stock-based compensation expense recorded in the current quarter in relation to the adoption of SFAS 123(R). The Company's average consultant count for the three months ended January 31, 2007 was 572 globally, which was an increase of 75 consultants or 15% versus the three months ended January 31, 2006.

Executive recruitment compensation and benefits expenses of \$91.9 million increased by 32%, or \$22.1 million, as compared to \$69.8 million recorded in same period last year due to increased variable compensation based rewards as well as new consultants joining the Company. Additionally, stock-based compensation expense accounted for an additional \$1.1 million in total expense in the current quarter, which was not present last year. Executive recruitment compensation and benefits expense, as a percentage of fee revenue increased to 64%, as compared to 63% in the prior year quarter due primarily to SFAS 123(R) stock-based compensation expense. The average number of consultants in executive recruitment increased to 482, an 11% increase or 49 consultants over the prior year quarter. The change in exchange rates resulted in an increase in compensation and benefits expense of \$2.8 million in the current quarter.

Futurestep compensation and benefits expense increased \$3.0 million, or 24%, to \$15.5 million from \$12.5 million in the prior year due to internal resource development as well as continuing investment in our people. Increased variable compensation expenses as well as additional external contractors' expense arising from increased business have also been major factors in expense fluctuations over the same period last year. Stock-based compensation expense recorded in the regions totaled \$0.1 million in the current year. Average Futurestep consultant headcount increased to 90 at January 31, 2007, a 52% increase over the past year. Futurestep compensation and benefits expense, as a percentage of fee revenue, was 70% in both quarters.

Corporate compensation and benefits expense increased \$0.3 million to \$4.9 million in the current quarter, mainly due to stock-based compensation expense.

General and Administrative Expenses. General and administrative expenses increased \$5.5 million, or 26%, to \$26.8 million in the three months ended January 31, 2007 compared to \$21.3 million in the same period last year. Increases to general and administrative expenses related to a \$2.1 million increase in premise and office expense, \$1.8 million increase in bad debt expense along with a \$2.0 million increase in other types of general expenses including meeting and travel expense. Increased office expense is due to the office openings and relocations in the latter part of the previous fiscal year. Bad debt expense increased in relation to increases in allowances for doubtful accounts for larger receivables balances in North America and Europe from increased billings versus the same period last year. The Lominger Entities contributed \$0.4 million to the increase. The change in exchange rates resulted in an increase in general and administrative expenses of \$1.0 million in the current quarter.

In executive recruitment, general and administrative expenses increased \$4.4 million. The increase relates to a \$1.6 million increase in premise and office expense, which increased across all four regions, and \$1.5 million from increases in accounts receivable allowance reserves due mainly to larger receivables balances from increases in engagements billed. Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

As a result of our global operating activities, we are exposed to certain market risks, including foreign currency exchange fluctuations and fluctuations in interest rates. We manage our exposure to these risks in the normal course of our business as described below. We have not utilized financial instruments for trading or other speculative purposes, nor do we trade in derivative financial instruments.

Foreign Currency Risk

Substantially all our foreign subsidiaries' operations are measured in their local currencies. Assets and liabilities are translated into U.S. dollars at the rates of exchange in effect at the end of each reporting period and revenue and expenses are translated at average rates of exchange during the year. Resulting translation adjustments are reported as a component of comprehensive income in our Statements of Stockholders' Equity.

Transactions denominated in a currency other than the reporting entity's functional currency may give rise to transaction gains and losses that impact our results of operations. In the nine months ended January 31, 2007, we recognized nominal foreign currency gains of less than \$0.1 million globally.

Our primary exposure to exchange losses is based on outstanding inter-company loan balances denominated in U.S. dollars. If the U.S. dollar strengthened 15%, 25% and 35% against Pounds Sterling, the Euro, the Canadian dollar, the Australian dollar and the Yen, the Company's exchange loss would have been \$1.7 million, \$2.8 million and \$3.9 million, respectively, based on outstanding balances at January 31, 2007. If the U.S. dollar weakened by the same increments against Pounds Sterling, the Euro, the Canadian dollar, the Australian dollar and the Yen, the Company's exchange gain would have been \$1.7 million, \$2.8 million and \$3.9 million, respectively, based on outstanding balances at January 31, 2007.

Interest Rate Risk

As of January 31, 2007, we had no outstanding balance on our credit facility. We have \$59.7 million of borrowings against the cash surrender value of COLI contracts as of January 31, 2007 bearing interest primarily at variable rates. The risk of fluctuations in these variable rates is minimized by the fact that we receive a corresponding adjustment to our borrowed funds crediting rate on the cash surrender value on our COLI contracts.

As of January 31, 2007, we have approximately \$45.3 million of 7.5% Convertible Debt and \$11.4 million liquidation value of 7.5% Convertible Preferred Stock that is mandatorily redeemable by us if still outstanding on June 13, 2010.

Item 4. *Controls and Procedures*

(a) Evaluation of Disclosure Controls and Procedures.

As of the end of the period covered by this report, we carried out an evaluation of the effectiveness of the design and operation of our "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934, as amended ("Exchange Act"), Rules 13a-15(e) and 15d-15(e) under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer. Based upon such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective.

(b) Changes in Internal Control over Financial Reporting.

During the fiscal quarter ended January 31, 2007, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, including any corrective actions with regard to significant deficiencies and material weaknesses.

- For the purpose of determining if the results have been achieved, all acquisition revenues will be excluded.
- 1/3 of the target award will be based on an appraisal of your achievements in meeting MBOs that we will mutually agree upon over the next 30 days including Leadership and Personal performance goals (which would include the performance of the company as measured by the Board approved annual financial and strategic goals, personal business origination, recruiting and retention, and mentoring your successor).
- Notwithstanding the above, Korn/Ferry guarantees to pay you \$200,000 minimum cash bonus award for FY07 and FY08. These guaranteed cash bonuses are collectively referred to as the "Guaranteed Cash Bonuses".
- All bonus awards (including the Guaranteed Cash Bonuses) for each fiscal year will be paid at the same time as for all other Senior Client Partners, and are contingent on your full-time active employment in good standing through the payment date (except in the case of FY2008, payment will be contingent on your full-time active employment in good standing through April 30, 2008), as well as receiving a Good or Exceptional rating on the Values scale of the Nine-Box appraisal system.

Term

Section 2 of the Employment Agreement is amended to provide that the term of your employment will automatically expire on April 30, 2008 (referred to as the "Expiration Date"). Thus, the "failure to renew" concept is removed from the Employment Agreement.

Changes to Termination Provisions

We have also agreed to the following changes to Section 6 of the Employment Agreement: (i) subparagraphs (3) of Sections 6(a) and 6(b) are deleted in their entirety; (ii) the reference in Section 6(d) to age 65 is changed to April 30, 2008 and subparagraphs (2) and (3) of Section 6(d) are deleted in their entirety; (iii) subparagraphs (2) and (3) of Section 6(e) are deleted in their entirety; (iv) subparagraphs (2) and (3) of Section 6(f) are deleted in their entirety; and (v) the reference in subparagraph (A) of the definition of "Good Reason" to "Executive Vice President, Organizational Development" is changed to "Executive Vice President of the Company and President of Leadership Development Solutions" and subparagraph (D) of the definition of "Good Reason" is deleted.

Should your employment be terminated prior to the Expiration Date (and prior to a Change in Control) by the Company without Cause or for a Performance Reason, or by you for Good Reason, then in lieu of the amounts and benefits set forth in Sections 6(d)(2) and 6(e)(2) and all other severance amounts to which you may then be entitled, you will receive in a lump sum within thirty (30) days after termination the lesser of (i) \$750,000 or (ii) the aggregate amount of base salary and Guaranteed Cash Bonuses you would have received if you remained employed on a full-time continuous basis from the date of termination through the Expiration Date.

Should your employment be terminated prior to the Expiration Date and within 12 months after a Change in Control by the Company without Cause or for a Performance Reason, or by you for Good Reason, then in lieu of the amounts and benefits set forth in Section 6(f)(2) and all other severance amounts to which you may then be entitled, you will receive in a lump sum within thirty (30) days after termination the sum of \$750,000.

Moreover, in lieu of the benefits provided for in subparagraphs (3) of Sections 6(a), 6(b), 6(d), 6(e) and 6(f) of the Employment Agreement, if your employment is terminated prior to the time you reach age 60 either by the Company without Cause, or by you for Good Reason, then you shall receive a payment of \$200,000 (referred to herein as the "Health Benefit") within thirty (30) days of the date of such termination to help you pay for your and your spouse's medical, dental and vision premiums and related tax liabilities arising from such payment. Should you remain continuously employed by the Company through term of this agreement, you shall be entitled to receive the Health Benefit within 30 days of the termination date of this agreement. No other health benefits or insurance will be provided by the Company after termination of employment other than COBRA coverage which you may obtain, to the extent available, at your sole cost and expense.

The payment of all severance benefits and the Health Benefit will, of course, be contingent upon your execution of the Company's standard form of severance and release agreement.

Should you terminate your employment, except for Good Reason, prior to the Expiration Date, the Company will be released from all of its obligations from that time forward and you shall only be entitled to receive your Accrued Compensation.

To the extent there are any inconsistencies between this letter agreement and your Employment Agreement, the provisions of this letter agreement shall govern and control. Except as otherwise expressly provided in this letter agreement, your Employment Agreement remains unmodified and in full force and effect.

Please indicate your acceptance of this letter agreement by signing and dating a copy of this letter agreement in the spaces provided below and returning such signed and dated copy to me.

Sincerely,

/s/ Gary Burnison

Gary Burnison, Chief Operating Officer
